Memo To Coal File:

RE: Utah Power & Light Company  
Wilberg Mine  
ACT/015/019, Folder #7  
Emery County, Utah

The above mentioned operation was given a partial inspection of the waste rock disposal site on December 22, 1983 by Joe Helfrich, and Ken Wyatt from the Division and Lorin Nielsen from the Department of Natural Resources. The purpose of the inspection was to acquaint Mr. Nielsen with the approved waste rock disposal site for the Wilberg and Des-Bee-Dove operations.

Upon arriving at the site it was observed that approximately 3 to 5 dump truck loads of rock/coal had been deposited at the site. A brief discussion was held concerning The State Regulatory Agency policy in relation to the Bureau of Land Management policy governing coal/rock ratios in disposal areas.

No compliance problems were observed.

  
Joe Helfrich  
Field Supervisor
