October 23, 1984

Mr. Larry J. Guymon, PE
Emery Mining Corporation
P. O. Box 310
Huntington, Utah 84528

Dear Mr. Guymon:

RE: Approval of Notice of Violation N84-7-10-1 Abatement
Plans, Utah Power & Light Company, Wilberg Mine,
ACT/015/019, #3, #4 and #7, Emery County, Utah

Based on an on-site inspection of the violation site on October 11, 1984 with Division hydrologists and Mr. Guymon, the tentative plans for abatement of this violation were site approved. After reviewing the hydrologic calculations associated with the plan, the overall plan is hereby approved and may be implemented concurrently with receipt of this letter. It should be pointed out that if coal fines become a problem associated with runoff from this area, then a filter (gabion, silt fence, etc.) will be required at the outlet to the west bar ditch.

Thank you for your submittal of this information. Should questions arise, please contact me or Tom Munson of the technical staff

Sincerely,

A handwritten signature in cursive script, appearing to read 'D. Wayne Hedberg'.

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
