Dear Mr. Guymon:

RE: Abatement Plans for Surface Drainage Problems, Coal Truck Loadout Facility, Notice of Violation N84-7-10-1, Wilberg Mine, ACT/015/019, #3 and #7, Emery County, Utah

The Division has reviewed your September 21, 1984 plans regarding the surface drainage at your coal truck loadout facility and would like to suggest an alternative sediment control method to control the migration of coal fines from this area before they enter the undisturbed drainage.

Based on an on-site visit with Mr. Guymon arranged for the afternoon of October 11, 1984, the Division has decided to postpone any decision regarding this matter until after this meeting.

Thank you for your submittal and your commitment to find a workable solution to this problem.

Sincerely,

A handwritten signature in cursive script that reads "D. Wayne Hedberg".
