RE: Wilberg/Cottonwood Mine - Revision to the 4th East Tube
Conveyor Plan - Temporary Crane Pad

Dear Mr. Braxton:

Submitted are three copies of UP&L's revision to the construction plans associated with the 4th East permanent tube conveyor and bent structure. This revision replaces the spur road plans submitted and approved by your office on March 29, 1985.

This latest plan affords less disturbance and reclamation than our original proposal by utilizing one large crane pad at the base of the western hillside slope by the coal silo.

Please review and consider this plan as an amendment to the original approved plan. If you have any question, please contact me at 535-4225. Thank you.

Yours truly,

A handwritten signature in cursive script that reads "C. E. Shingleton".
