RE: Relocation of Security Guard Shack, Minor Road and Surface Drainage Changes, Utah Power and Light Company, Wilberg Mine, ACT/015/019-87A, Folder #2, Emery County, Utah

I reviewed the Utah Power and Light submittal received June 17, 1987, regarding the above-mentioned situation. The location map B, entitled "Surface Facilities" is acceptable.

The deficiency in this amendment is that there are no reclamation costs associated with the guard shack. The reclamation of the flood lights and power line should also be addressed.
