Re: Amendment to 1988 Coal Exploration Plan -
East Mountain, Emery County, Utah

Dear Mr. Whitehead:

This is a request to amend the 1988 Coal Exploration Plan on East Mountain in Emery County, Utah. It is requested that the following drill holes be added.

<u>Hole No.</u>	<u>Location</u>	<u>Total Depth</u>	<u>Surface Ownership</u>	<u>Objective</u>	<u>MRP Permit</u>
EM-145	2000' N 2400' W SE Corner Sec 32 T17S, R7E	1300'	BLM	Evaluate the high temperature area near the Cottonwood Seam	ACT/015/019 Wilberg/ Cottonwood
EM-146	2250' N 1050' W SE Corner Sec 32 T17S, R7E	1400'	BLM	Cottonwood Seam strata.	
EM-147	2850' N 350' W SE Corner Sec 32 T17S, R7E	1500'	BLM		

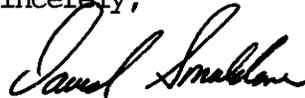

Proposed holes EM-146 and EM-147 are located on roads which were developed in June and July 1988 and are currently open. Proposed hole EM-145 is located on a road which has previously been reclaimed. Approximately 700 feet of road will be reopened. All roads and drill sites will be reclaimed per approvals to the 1988 exploration plan. Archeological surveys have already been conducted on the proposed drill sites.

Mr. John Whitehead
August 16, 1988
Page 2

Page 8 revised 8/16/88 and a portion of surface exploration drill holes map has been copied for insertion to the plan. It is hoped to drill in this area by early September 1988.

If there any questions please call.

Sincerely,

David Smaldone
Director of Permitting,
Compliance & Services
Mining Division

DS:bb:6032
Enclosure

Estimated Timetable and Completion Data for Reclamation Work:

Once reclamation of a drill site begins all phases are continuous, that is, cat work, spreading topsoil, ditching, seeding, and harrowing. All drill sites and access roads will be reclaimed as soon as possible after the hole has been completed.

Completion is scheduled by November 15, 1988 or sooner, contingent on the drilling success and the starting date.

Included in this submittal are topographical and land status maps showing existing roads, major drainages, cultural features and the proposed drilling sites with proposed access roads.

1988 PROPOSED DRILLING
