RE: Utah Power & Light's Cottonwood Coal Mine

Attention: Rick Smith and Brent Stettler

Dear Dianne:

The Division has reviewed Utah Power & Light's 1988 Cliff Subsidence/Eagle Monitoring Report for the Cottonwood Coal Mine. It is accurate and complete. As you know, monitoring must continue as per USFWS and DWR permits for Utah Power & Light to take inactive eagle nests so that an appropriate data base is secured and from which mitigation can be developed.

Sincerely,

*Timothy H. Provan*
