Power and Light Company, Cottonwood/Wilberg Mine,  
ACT/015/019, Folder #2, Emery County, Utah

VENTILATION INTAKE PORTAL - CORNCOB WASH

Dear Pam:

90E

Transmitted herewith please find seven (7) copies of Utah Power and Light Company's plan for amending the Cottonwood/Wilberg PAP. The proposed plan involves development of one (1) intake portal which will be located near the center of Section 33, T17S, R7E as indicated in Figure 1. The portal will be developed by mining east off of 2 1/2 South (see Figure 2).

The intake portal will provide improved ventilation for the Sixteen and Seventeen West longwall panels.

The material should be used to update the approved PAP as follows:

Replace pages 3-6, 3-7 and 4-1 with pages 3-6, 3-7, 3-7.1 and 4-1 dated 5/1/90.

Replace Drawing CM-10807-WB, Plate 3-1 with Drawing CM-10807-WB, revised 5/1/90.

If you have any questions concerning this matter, please call me at 687-9821.

Sincerely,

Val Payne  
Senior Environmental Engineer
