DIVISION OF
OIL, GAS & MINING

Dear Pamela:

Re: Request for Amendment to Permit Application Package, Utah
Power and Light Company, Cottonwood/Wilberg Mine,
ACT/015/019, Folder #2, Emery County, Utah

^{90 A}
Fourth South Breakouts (Channel Canyon Intakes)

Transmitted herewith please find seven (7) copies of Utah Power and Light Company's plan for amending the Cottonwood/Wilberg Permit Application Package. These materials should be used to update the approved PAP as follows:

Replace pages 3-6, 3-7 and 4-1 with pages 3-6, 3-7 and 4-1 revised 1/4/90.

Replace Drawing CM-10807-WB, Plate 3-1 with Drawing CM-10807-WB, revised 1/4/90.

Drawing KS1185A, Sheets 1 and 2, is submitted to provide further information for your understanding of the proposed project. These drawings are not submitted for inclusion in the PAP.

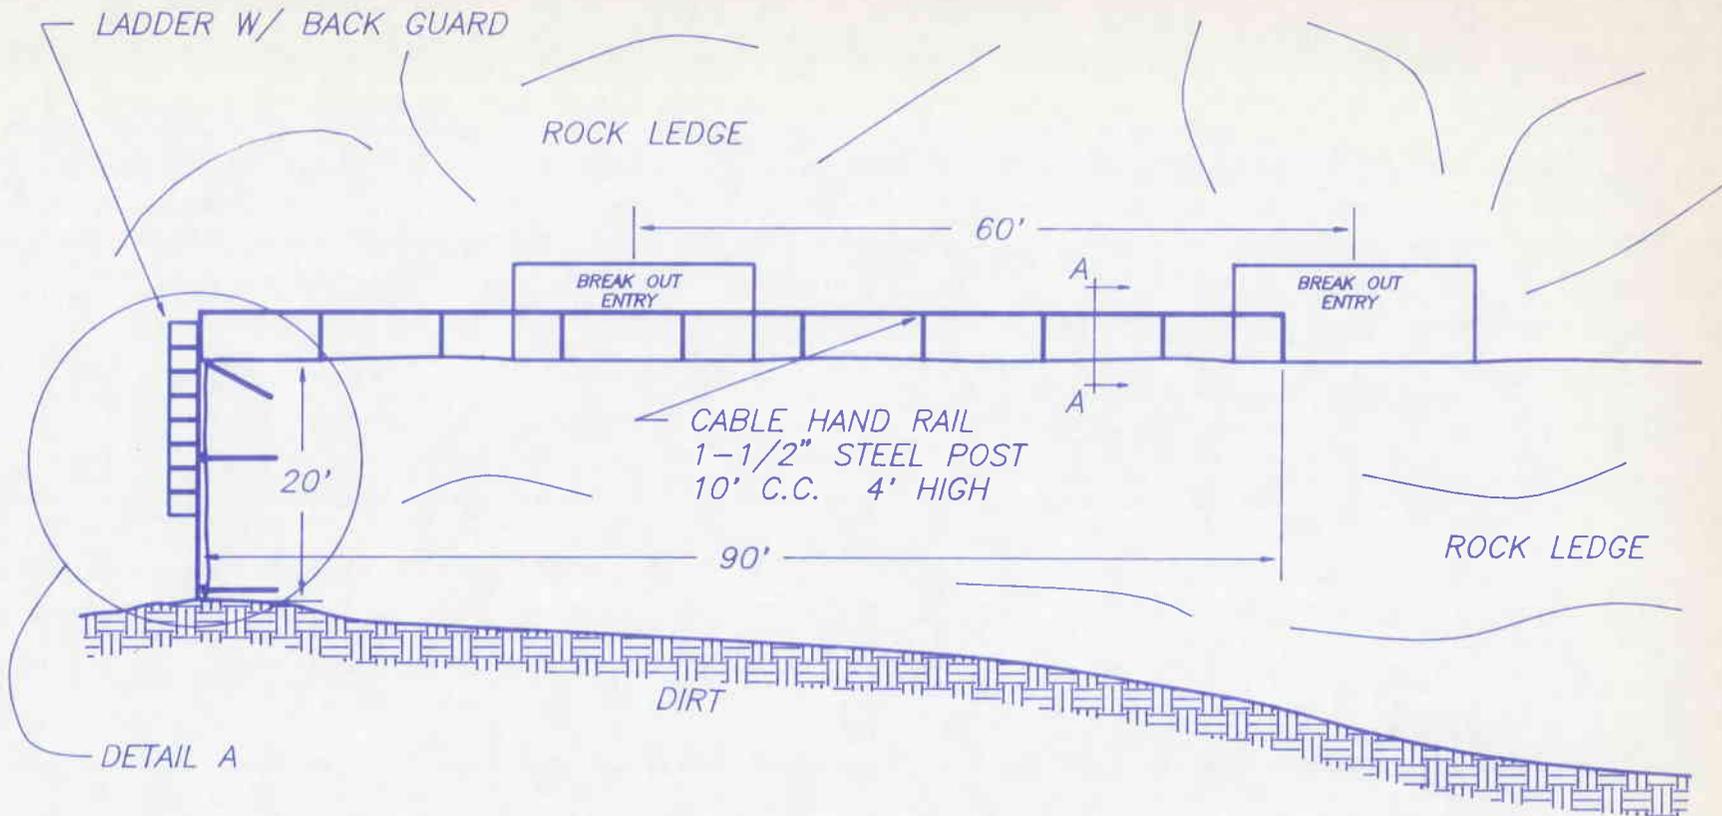

Reclamation costs are estimated to be \$1,500 which is less than 0.1% of the total reclamation and bonding costs. Therefore, no revisions have been made to the itemized reclamation cost schedules in the PAP.

It is requested that the Division's review of the proposed amendment be completed by January 12, 1990.

Sincerely,

David Smaldone
Director of Permitting,
Compliance and Services
