RE: Channel Canyon Breakout-Ladder Extended, Utah Power and Light Company, Cottonwood/Wilberg Mine, ACT/015/019, Folder #2, Emery County, Utah 90A

Synopsis and Analysis

The Channel Canyon Breakout is required by MSHA to be designated as an emergency escapeway, and therefore, access from the portal level into the canyon itself is needed. If all other routes were cut off, personnel could make their way to the canyon floor via a cable hand rail and ladder mounted on the rock ledge below the coal seam.

The text and map were submitted identifying this change to the PAP.

Recommendation

This amendment should be approved.
