Dear Mr. Smaldone:

Re: Notice of Intent to Explore Less Than 250 Tons, Trail Mountain, Utah Power and Light Company, Cottonwood/Wilberg Mine, ACT/015/019-90D, Folder #2, Emery County, Utah

The regulation for exploration of less than 250 tons (UMC 776.11) is still in effect because the proposed new rule has not been approved by the Office of Surface Mining (OSM). Therefore, some information is still required to make the written Notice of Intent to Explore complete.

According to UMC 776.11(b)(1) and (b)(2) the name, address, and telephone number of the person seeking to explore, as well as the representative who will be present at and responsible for conducting the exploration activities, must be included in the Notice of Intent. The original Notice of Intent and subsequent letter did not contain this information.

In discussions with the Forest Service, the specifics of the drainage controls for the roads and fencing of these areas will be administered by their office.

Therefore, please resubmit the Notice of Intent with the requirements of UMC 776.11(b)(1) and (b)(2) as well as your responses in a letter dated April 24, 1990.

If you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Grubaugh-Littig".
