Dear Mr. Braxton:

#2

Please find enclosed for your review and approval a submittal entitled "Hydraulic Analysis and Design Related to Permit Changes Ordered by the Utah Division of Oil, Gas and Mining for the Sediment Ponds at the Cottonwood/Wilberg Mine Portal" dated September 1991. The submittal was prepared by Hansen, Allen and Luce, Inc. (HAL) in response to the above-referenced Division Order.

Following your review and approval, we will proceed with permitting through MSHA and submit appropriate amendments to the Cottonwood/Wilberg PAP.

Thank you for your consideration allowing time for adequate preparation of this response. Your consideration is appreciated.

Sincerely,

J. Blake Webster  
Permitting Administrator
