RE: Sediment Pond Cleaning, PacifiCorp Electric Operations, Cottonwood/Wilberg Mine, ACT/015/019, Folder #2, Emery County, Utah

## Synopsis

The Division received a request to clean the Cottonwood North Sediment Pond on February 22, 1991. This memo reviews this request.

## Analysis

The operator is disposing of the sediment pond waste material in the new waste rock site, an approved waste disposal site. The South Pond, of the two cell system, will remain functional during cleaning and all material will be removed from the North Pond and sampled according to the Division's policy.

## Recommendation

This procedure be approved as outlined in PacifiCorp's letter of February 15, 1991.
