Re: No Permit Needed for Hunter Coal Preparation and Blending Facility, Cottonwood/Wilberg Mine, ACT/015/019, Folder #2, Emery County, Utah

The Hunter Coal Preparation and Blending Facility does not require a permit due to the exemption in R614-302-260 and R614-302-261 that states:

260. "Coal Processing Plants Not Located Within the Permit Area of a Mine."

261. "R614-302-260 applies to any person who operates or intends to operate a coal processing plant outside the permit area of any coal mining and reclamation operation, other than such plants which are located at the site of ultimate coal use. Any person who operates such a processing plant will obtain a permit from the Division in accordance with the requirements of R614-302-260."

The "ultimate use" of the coal at the power plant exempts it from permit requirements.
