Dear Mr. Nodine:

Re: 1991 East Mountain Drilling Application, PacifiCorp Electric Operations,
CEP/015/019-91B, Folder #2, Emery County, Utah

PacifiCorp Electric Operations has proposed to drill one hole as part of a time domain reflectometry study. This hole is located within the permit area above the Cottonwood Mine on East Mountain. Electronic monitoring equipment will be installed in the drill hole where monitoring will be conducted for two years. The drill site will be reclaimed in 1991 and the road reclaimed in 1993 when monitoring is completed.

Due to the fact that this drill hole is located within the permit area, the Division has the lead and will coordinate comments and issue the approval. Therefore, if you have any concerns, please forward them to me at the Division. I appreciate your cooperation.

If you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Grubaugh-Littig".
