Dear Ms. Grubaugh-Littig:

Pursuant to your telephone call of June 9, 1992 regarding reclamation of East Mountain drill holes, I understand and generally support Ms. White's comments concerning seeding in June rather than in the fall; however, based on past drill hole reclamation, I feel that June seeding at these sites can be successful.

If, following a site visit in mid to late summer of 1993, it is determined that reclamation is not successful, the areas will be seeded again in the fall of that year.

Sincerely,

Guy Davis
