RE: CHANNEL CANYON PERMANENT SEALS, PACIFICORP, COTTONWOOD MINE, ACT/015/019, EMERY COUNTY, UTAH

Dear Ms. Grubaugh-Littig:

PacifiCorp plans to permanently seal the Channel Canyon portals according to the approved reclamation plan for the Cottonwood/Wilberg Mine ACT/015/019, page 4-1 and 30 CFR Part 75.1711-2.

However in the reclamation plan it specified removing the escape ladder, this ladder is scheduled to remain to allow mine personnel to access the portals for monitoring purposes but will be removed before final reclamation.

The seals will be constructed out of solid block and located approximately 25' from the outcrop. The completion of these portal seals is scheduled to take place in the immediate future.

If you have any questions or comments please feel free to contact me or Karl Houskeeper at 653-2312.

Sincerely,

Val Payne
Sr. Environmental Engineer
