RE: Permit Renewal, Andalex Resources, Inc., Centennial Project, Folder #2, ACT/007/019, Carbon County, Utah

SUMMARY AND RECOMMENDATIONS

Andalex has submitted a response to comments made on the General Contents and Biology sections of the R614-301 regulations. Clarifications have been made in several places, and lists of permits and violations have been updated. Andalex has also committed to working with the Division to rework its revegetation test plot in 1992.

All of the concerns expressed in my December 17, 1991, memoranda have been adequately addressed, and no stipulations to the permit for these sections are needed.
