RE: AMENDMENT TO INDICATE TEMPORARY STORAGE OF WASTE ROCK AT THE MINE SITE BEFORE TRANSPORTATION TO THE WASTE ROCK SITE, PACIFICORP, COTTONWOOD MINE, ACT/015/019, EMERY COUNTY, UTAH

Dear Ms. Grubaugh-Littig:

Per PacifiCorp's letter dated July 19, 1993 and subsequent conversation with Henry Sauer, Page 3-43 has been revised to indicate that the temporary storage of waste rock at the mine site will not exceed thirty (30) days.

Hopefully this will expedite the approval of this amendment. If you have any further questions, please feel free to contact Karl Houskeeper or me at 653-2312.

Sincerely,

A handwritten signature in black ink, appearing to read "Val Payne".

they are incorporated. Parts will be sold for scrap or salvaged.

NON-COAL AND MINE DEVELOPMENT WASTE DISPOSAL

In the north end of the upper storage yard, a trash chute and collection box have been provided for disposal of non-coal waste material from the mine.

Material that accumulates in the collection box is loaded into trucks by front-end loader. Trash is then transported to a state and federal approved dump site.

The concrete trash chute and collection box will be demolished during reclamation and used for backfill.

Used oil accumulated at the mine site is reclaimed in compliance with the Utah Oil Rerefinement Act and CFR Title 40, Part 266, Subpart E. Used oil is collected at the mine site by a Division approved collector/hauler and reclaimed through a Division, EPA approved reclaimer.

Underground development waste is temporarily stored adjacent to the non-coal waste pile and then transported to an approved waste rock disposal site. Temporary storage will not exceed thirty (30) days. A modification to the underground development waste disposal plan is included in Appendix VII.

OTHER MINE FACILITIES

Office - Bathhouse - Warehouse - The mine office at Cottonwood/Wilberg is located underground off the portal road on the same level as the Hiawatha Seam. It is part of an underground facility containing a small parts warehouse and bathhouse. The floor plan comprises 2,300 square feet, housing mine administration, first aid, safety, dust control, and clerical personnel. Included in the office is a conference room and
