**RE: REQUEST FOR AN AMENDMENT TO REVISE PAGE 3-43 TO INDICATE
 TEMPORARY STORAGE OF WASTE ROCK AT THE MINE SITE BEFORE
 TRANSPORTATION TO WASTE ROCK SITE, PACIFICORP, COTTONWOOD
 MINE, ACT/015/019, EMERY COUNTY, UTAH**

Pacificorp requests that the MRP be amended by the inclusion of the enclosed Page 3-43 which has been revised (6/22/93) to indicate the temporary storage of waste rock before it is transported to the Waste Rock Site.

This process has been used for several years but has not been clearly defined in the MRP.

If you have any questions please feel free to contact Karl Houskeeper or myself at 653-2312.

Sincerely,

Val Payne
 Sr. Environmental Engineer

they are incorporated. Parts will be sold for scrap or salvaged.

NON-COAL AND MINE DEVELOPMENT WASTE DISPOSAL

In the north end of the upper storage yard, a trash chute and collection box have been provided for disposal of non-coal waste material from the mine.

Material that accumulates in the collection box is loaded into trucks by front-end loader. Trash is then transported to a state and federal approved dump site.

The concrete trash chute and collection box will be demolished during reclamation and used for backfill.

Used oil accumulated at the mine site is reclaimed in compliance with the Utah Oil Rerefinement Act and CFR Title 40, Part 266, Subpart E. Used oil is collected at the mine site by a Division approved collector/hauler and reclaimed through a Division, EPA approved reclaimer.

Underground development waste is temporarily stored adjacent to the non-coal waste pile and then transported to an approved waste rock disposal site. A modification to the underground development waste disposal plan is included in Appendix VII.

OTHER MINE FACILITIES

Office - Bathhouse - Warehouse - The mine office at Cottonwood/Wilberg is located underground off the portal road on the same level as the Hiawatha Seam. It is part of an underground facility containing a small parts warehouse and bathhouse. The floor plan comprises 2,300 square feet, housing mine administration, first aid, safety, dust control, and clerical personnel. Included in the office is a conference room and
