Permit No. Act 015/019

DIVISION OF
OIL, GAS & MINING

Inspection Date 6/30/93

Please number comments to correspond with topics on previous page.

General Comments This partial inspection observed environmental control measures at the mine site upper pad, excluding Deep Portal area, middle pad and lower pad. Also observed the refuse piles, active and inactive. Did not cover the Cottonwood Creek disturbed area.

Division The Division's middle parking lot area needs to be cleaned of paper cups. The operator stated he would have the ditch cleaned immediately.

Other Sediment Control Measures Salt fences were observed on the back field and on the soil piles adjacent to the refuse pile.

Refuse Pile The lower inactive refuse pile has been topsoiled and will be seeded this fall. The active refuse pile was observed and a new lift has recently been started. No standing water was observed on the pile.

Roads Observed all primary roads. The road to the active refuse pile had recently been graded. The majority of the others were blacktopped and in good condition.
