Mine, ACT/015/019, Compliance Check

I have been advised by Colleen Carlson of the AVS office in Lexington, Kentucky that the federal cessation order C94-020-190-1 issued on January 13, 1994 by the Albuquerque field office of the Office of Surface Mining would result in a conditional issue recommendation from their office. Inasmuch as the underlying federal NOV is presently under appeal by the permittee (PacifiCorp), I would recommend that we support the AVS recommendation with a stipulation in the permit approval that would require the permittee to provide verification of resolution of the referenced federal enforcement action.

This may be a moot point with the possibility of the referenced federal enforcement action being vacated. I will update you accordingly.
