Re: Five-Year Renewal Completeness, Cottonwood/Wilberg Mine, PacifiCorp,  
ACT/015/019-94B, Folder #3, Emery County, Utah

*Val*  
Dear Mr. Payne:

The Division has determined that the permit renewal application for the Cottonwood/Wilberg Mine is "complete and accurate", as defined by the policy directive for permit renewal, effective January 12, 1994, with the submittal of the updated legal and financial and violation information, the current bond and evidence of liability insurance.

Publication of this public notice may proceed as required by R645-300-121. Due to an oversight at the Division, this completeness determination was inadvertently delayed and should have been issued before this date for the permit renewal to proceed by the date of expiration, July 6, 1994. Therefore, the publication should proceed for four consecutive weeks. If no adverse comments are received at the end of the 30-day comment period, findings for the renewal will be made and the permit renewed.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lowell'.

Lowell P. Braxton  
Associate Director, Mining
