Re: Approved Revision to North Sediment Pond cleaning Procedure,
PacifiCorp, Cottonwood/Wilberg Mine, ACT/015/019, Folder #3,
Emery County, Utah

Dear Mr. Payne:

The proposal to enlarge the temporary sediment waste containment area within the Cottonwood/Wilberg Waste Rock Storage Facility has been reviewed. "Thicker" sediment is proposed to be placed in the enlarged containment area.

This revision is being approved on a trial basis and its performance must be evaluated prior to the next sediment pond cleanout.

Please submit six copies of the revised text and maps by May 6, 1994.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Grubaugh-Littig".

Pamela Grubaugh-Littig
Permit Supervisor
