RE: AMENDMENT TO PERMIT AND MAPS, PROPOSED COTTONWOOD FAN PORTAL VOLUME 11, COTTONWOOD MINE, ACT/015/019, EMERY COUNTY, UTAH.

#2 97MT

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, herewith submit an amendment to the permit to create the Proposed Cottonwood Fan Portal Volume 11.

Copy Daron

GENERAL INTRODUCTION:

During the 1997 mid-term review for the Cottonwood/Wilberg Mine, the Division identified two areas of concern. These consisted of deficiencies in the reclamation plan for the Proposed Cottonwood Fan Portal and improper calculation in the bond cost estimate.

The solution to these areas of concern, as recommended by the Division, involved creating Volume 11, Proposed Cottonwood Fan Portal. Included in this new Volume 11 are pages from the original permit that make reference to the proposed Cottonwood Fan Portal Area, whole sections have been pulled from the permit that refer only to the proposed Cottonwood Fan Portal, and copies of Appendix III and XIII have also been included. Response to the Divisions deficiencies are also outlined in this volume.

The plan now being submitted was partially reviewed during a preliminary submittal meeting on June 25, 1997. Some items of concern were addressed by the Division at that time. Corrections and additions have been made since then to try and bring the plan closer to what the Division anticipates will meet approval.

Through discussion by Daron Haddock and Chuck Semborski concerning the possibility of further revisions or elaboration on any given item of the amendment that the Division will require, only one copy of the amendment will be submitted for this phase of the review. When the Divisions findings are returned "Energy West" will review the findings and address the areas of concern. After revisions, "Energy West" hopes to be able to meet approval and then send
