Re: Results of the Midterm Review, PacifiCorp, Cottonwood/Wilberg Mine, C/015/019-MT02, Outgoing File

Dear Mr. Semborski:

The Division has completed a review of the Cottonwood/Wilberg facility as required by R645-303-211. You should recall that the items under review were as follows:

1. An AVS check to ensure that Ownership and Control information is current and correct.
2. A review of the plan to ensure that the requirements of all permit conditions, division orders, notice of violation abatement plans, and permittee initiated plan changes are appropriately incorporated into the plan document.
3. A review of the applicable portions of the permit to ensure that the plan contains commitments for application of the best technology currently available (BTCA) to prevent additional contributions of suspended solids to stream flows outside of the permit area.
4. A review of the bond to ensure that it is in order and that the cost estimate is accurate and is escalated to the appropriate year dollars.
5. The Division may conduct a technical site visit in conjunction with the assigned compliance inspector to document the status and effectiveness of operational, reclamation, and contemporaneous reclamation practices.

The results of the review are contained in the enclosed review documents. You will note that items 1 and 3 need your further attention. These items deal with the ownership and control and (BTCA) information. The Ownership and Control information should be faxed to the Division as soon as possible. However the (BTCA) information will need to be provided in the

Page 2

form of an amendment to the Cottonwood/Wilberg mining and reclamation plan. The amendment should be submitted by no later than August 2, 2002.

If you have any questions regarding these requirements or the Midterm Review please don't hesitate to call me at (801) 538-5325, or Joe Helfrich at (801) 538-5290.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock". The signature is written in a cursive style with a large initial "D" and "H".
