Hi, Scott. Any updates on this situation? Thanks. Pam

Pam - We have recently concluded our internal analysis which included payoff information and challenging options. An internal memo was prepared 8/28/07 and forwarded to our in-house attorney for directions on where to proceed from here. Because it involves the parent company he has to take it through upper management.....that is what I know as of now.....do you need something from me.....

Thanks,
Scott M. Child

Mr. Child: It was a pleasure to speak with you and I hope we addressed all your questions. Attached are challenge provisions in our regulations for your review. They start at Section 773.25 and go through 773.28.

I recommend Mr. Leighton pursue this option in particular if Pacificorp does not have any pending permit actions ready for immediate approval. We have already pulled some documentation we have on file here relating to Coal Junction and Alumbaugh Coal and will be ready to assign this to one of our Field Investigators to handle.

Look forward to hearing from you and when I get some payoff figures from OSM Denver, I will submit that information to you as well.

You can contact me by email dfefeley@osmre.gov or by phone 800.643.9748.
