Dear Mr. Haddock,

Subject: Phase II and III Bond Release Inspection for Reclaimed Areas of the Miller Canyon portal breakout area.

Phase II & III Bond Release Inspection took place on August 31, 2010; Energy West Mining Company has completed Phase II & III of the approved reclamation plan for the Miller Canyon portal breakout area. This will change the post mining land use from mining to wildlife habitat, grazing and recreational area. The BLM concurs with the reclamation that has taken place and with the post mining land use change.

If you have any questions concerning this matter, please contact Sue Wiler at (435)636-3651.

Sincerely

for Jerry Kenczka
Field Office Manager
