The Permittee submitted a revised Bond Summary Sheet based on a discussion which I had with Dennis Oakley on 12/2/2010. The new revised sheets was received today December 6, 2010.

I have completed my memo for this response, and have determined that the Permittee's reclamation cost to 2012 dollars is \$ 2,964,000, which is \$ 288,000 less than the bond amount which is posted of \$ 3,252,000.

I will forward my completed memo when I can scan and attach it to the TID 3600 document.

Dennis Oakley will need to submit a clean copy of his 12/6/2010 Bond Summary sheet for the final approval / incorporation process.

After Final Approval, Angela should prepare a letter for Mr. Baza's signature authorizing the bond amount reduction.

Hope this all makes sense.
