**Subj: Amendment to Update Volume 10, Cottonwood Mine Waste Rock Site, PacifiCorp,  
Cottonwood/Wilberg Mine, C/015/0019, Emery County, Utah, Task ID #4329**

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company (Energy West) as mine operator, hereby submits a status report concerning the update of Volume 10. On June 3, 2012, the Division sent the permittee their review of the amendment. The Division identified deficiencies that needed to be addressed prior to approval.

The permittee has been in contact with Ms. Burton and Ms. Campbell concerning deficiencies. To date, the deficiencies have been addressed but not submitted back to the Division. The permittee is working to update maps and drawings in this volume. However, the permittee has scheduled aerial photography to be conducted during the month of August. This will provide current topography of the area. Data reporting from the aerial photography is expected to be completed by mid-September. At that time, the amended Volume 10 will be submitted as a complete package.

Please let us know if you have any questions concerning this delay in the Volume 10 submittal. Contact myself at 435-687-4712 or Dennis Oakley at 435-687-4825 at you convenience.

Sincerely,

A handwritten signature in blue ink that reads "Kenneth S. Fleck".

Kenneth Fleck  
Geology and Environmental Affairs Manager
