Technical Analysis and Findings

Utah Coal Regulatory Program

August 8, 2017

PID: C0150019
TaskID: 5463
Mine Name: COTTONWOOD/ WILBERG
Title: UPDATE PERMIT AREA BOUNDARY

General Contents

Right of Entry

Analysis:

The amendment meets the State of Utah R645 requirements for Right of Entry.

The amendment adjusts the permit boundary from the center line of Cottonwood Creek to the center line of Cottonwood Canyon Road. The permittee, on page CTW-6, claims surface and subsurface ownership of this area with acquisition data of 04/15/2015. All right of entry documents are included in the Legal and Financial Volume of the MRP.

Legal Description

Analysis:

The application meets the State of Utah R645 requirements for the legal description.

The amendment provides a map that shows in detail the permit boundary adjustment. The new boundary will separate Fossil Rock/Trail Mountain Mine from Cottonwood/Wilburg Mine at the center line of Cottonwood Canyon Road. The adjustment entails receding the current boundary at the center of Cottonwood Creek to the center line of the road. The legal description and accompanying maps reflects this change.
