RE: Perimeter markers and
raptor protection on
power lines.

Dear Mr. Smith;

In response to your directive of June 19, 1981, as of this date, the perimeter markers have been installed at both the Trail Canyon site and the Bear Creek Canyon site. We have talked with the people from the Price office of the Wildlife resources Department, and have an appointment with a representative of that Department on July 8, 1981 to meet with us at the minesite to determine what if any modifications need to be made in our power poles or equipment for raptor protection.

Thank you,

Wendell Owen
