Inspection Memo
to Coal File:

RE: Co-op Mining Company
Bear Canyon Mine
ACT/015/025
Folder No. 7
Emery County, Utah

A partial inspection was performed at the Bear Canyon minesite on May 31, 1983 by John Whitehead. He was accompanied by Dennis White of Co-op Mining Company. The purpose of the inspection was to ascertain the status of the county road going through the scale and pad area associated with the scale which is the subject of cessation order C83-5-3-1.

A letter received from Wendell Owen dated May 21, 1983 indicated that the road had been returned to the original county road's configuration and elevation which existed prior to Co-op Mining Company's installing a pad area and scales. In conversation with Dennis White, the road configuration and elevation could not be exactly determined as no survey or documentation exists as to its pre-disturbance configuration. Mr. White indicated that he had altered the configuration of the pad area to achieve to the best of his recollection the original road configuration.
