Inspection Memo
to Coal File:

RE: Co-op Mining Company
Bear Canyon Mine
ACT/015/025
Folder No. 7
Emery County, Utah

A partial inspection was conducted on May 20, 1983 at the above noted minesite by John Whitehead. He was unaccompanied during the inspection as no one from Co-op Mining Company could be located on-site. The purpose of the inspection was to determine if the Bear Canyon Mine was in compliance with the remedial action required in NOV N83-5-7-1.

While on-site it was apparent that the truck loading and hauling process was continuing without regard to the remedial action required in the notice of violation. Several coal trucks were observed entering and leaving the property after having been filled with coal and crossing the pad area which was the subject of the violation. As a result Cessation Order C83-5-3-1 was issued to Co-op Mining Company for failure to abate violation N83-5-7-1.
