Dear Mr. *Mel* Coonrod:

RE: Permit Review, Bear Canyon Mine, ACT/015/025, #2, #4 and #6, Emery County, Utah

The Division has initiated the Technical Analysis (TA) review stage of the Bear Canyon Mining and Reclamation Plan (MRP). During the review, it was found that a discrepancy exists between Appendix 7 submitted on September 28, 1984 and Appendix 7 submitted on October 31, 1984.

After a discussion with the permitting staff, it was decided that it might be in the best interest of time to set up a meeting between the Division technical staff and yourself to go over the latest submittal to insure that the Division is reviewing the most current and up-to-date material. To insure this is possible, it is requested that you bring your copy of the most updated MRP of the Bear Canyon Mine to a meeting the week of the 17th of December, the exact time to be determined by contacting Mary Boucek.

The Division will be unable to continue with the review of the Bear Canyon permit application until this update is accomplished.
