Huntington, Utah 84528

Dear Mr. Coonrod

RE: Review of Second Response to Stipulations at Bear Canyon Mine ACT/015/025,
Folder #2 and Folder #4, Emery County, Utah.

The Division technical staff has evaluated the stipulation responses for the Bear Canyon Mine Permit transmitted via your letter of February 12, 1986. Stipulations 817.44-(1)-TM and Stipulation 817.57-(1)-TM have been adequately responded to.

Stipulations 817.46-(1)-TM is still not adequately addressed. Your response indicates that the channels will be constructed and maintained as illustrated in Chapter 7, with the same cross section design. Please specify the exact cross section you are referring to in Chapter 7 with a page or plate number that currently exists in your mining and reclamation plan.

Your provision of the above requested information will hopefully satisfy this final outstanding stipulation for the Bear Canyon permit. Please assure your response reaches the Division by May 1, 1986.

Thank you for your cooperation in this matter.

Sincerely

John J. Whitehead
Permit Supervisor/
Reclamation Hydrologist
