RE: Bear Canyon Modification

Dear John:

Co-Op Mining requests approval to secure that portion of the Hiawatha seam that was previously mined. This is in preparation for active mining pending approval of the requested modification. M.S.H.A. requires that this type of old works be brought up to a standard equal to todays requirements in safety. This work will take approximately 1 month to complete. In the event the modification is not approved, Co-Op will assume full responsibility for said work and will procede with immediate reclamation.

Your prompt reply to the above will be appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Melvin A. Coonrod". The signature is written in dark ink and is positioned above the printed name.
