Dear Mr. Mangum:

Re: Review of 1988 Water Data, Co-Op Mining Company, Trail Canyon Mine, ACT/015/021, and Bear Canyon Mine, ACT/015/025, Folder #2, Emery County, Utah

Attached is a copy of a Technical Memorandum from Tom Munson regarding review of the 1988 Water Quality Data for the two Co-Op Mining Company operations. Contained within this memorandum are recommendations for changes to operational monitoring programs which will reduce the analysis cost of the monitoring programs, and meeting the operational monitoring requirements of the Division.

In order to facilitate this, Co-Op Mining Company must submit an amendment request as identified in the recommendations section of Mr. Munson's memo, to change the current plans for both operations.

Please feel free to submit this information at your earliest convenience. Contact Tom Munson if you should have any questions on this matter.

Sincerely,
