Last week I discussed with Pam of your office the Technical Analysis for the Permit Renewal. Pam informed me that I would be receiving the T.A. on Wednesday 12 Sept 1990 of this week. I understood that the T.A. contained some requirements that directly related to the referenced violation and I wish to coordinate my response and proposals with those requirements. I did not receive the T.A. as expected and I am not able to meet the 14 September abatement time. Please allow me until 1 October to submit the proposed plans required for abatement. Also it is imperative that I receive the T.A. as promised in order to achieve the desired long term solutions within a reasonable length of time.

Thank you,
