Dear Ms. Grubaugh-Littig:

The Resource Development Coordinating Committee of the State of Utah has reviewed this proposed action. The Division of Wildlife Resources comments:

The Division of Wildlife Resources has several concerns with this application. Raptor nests are in the area; the company must conduct raptor nest surveys to determine the possible impact. The Division is also concerned with mining effluents and products, as well as loss of water to the groundwater system. Attached are comments on the effects of subsidence on wildlife.

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Utah State Clearinghouse at the above address, or call Carolyn Wright at (801) 538-1535 or John Harja at (801) 538-1559.

Sincerely,

Michael E. Christensen
