Re: Change Application - Huntington Creek
Bear and Trail Canyons

Dear Mr. Kingston:

On November 20, 1990, I corresponded with you concerning the above referenced Change Application that, when processed, will move 48 shares of stock in the Huntington-Cleveland Irrigation Company to your development in Bear and Trail Canyons. As of this date, I have yet to hear from you concerning this matter, which causes me some concern. This application should be processed and approved as soon as possible to legitimize the use of water taking place by Co-Op Mine in Huntington Canyon.

As you are also undoubtedly aware, your water rights must be in order before the mining permit, which is presently under review, can be approved. As I mentioned in my earlier correspondence, it will require approximately 90 days to process this application, barring any protests or other complications.

Please let me encourage you to attend to this matter as soon as possible so it can be taken care of. If you have any questions concerning the Change Application, please feel free to contact me.

Sincerely,

Mark P. Page
Area Engineer
