Re: Stream Channel Alteration Permit #92-93-02  
Co-Op Mining Company  
Bear Creek

Dear Tom:

For your information, Co-Op Mining Company has filed the above referenced Stream Channel Alteration Permit with this office, and it is currently being reviewed for comment prior to being considered for approval. As you are probably aware, this work pertains to a 30 foot culvert installation in Bear Creek, which will access the new bath house facilities, and the associated surface runoff retention pond.

If you have any concerns with this application, please contact me. The consideration for approval will take place on this permit in a few days.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mark".
