Re: Federal Lease U-024316, Application for Mining the Tank Seam, Co-Op Mining Company, Bear Canyon Mine, ACT/015/025 - 97- 1, Emery County, Utah

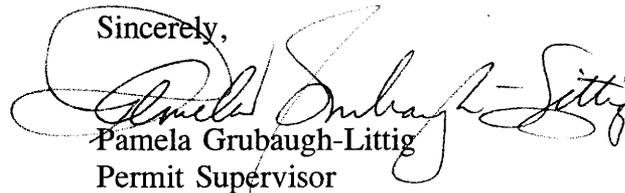

Dear Mr. Singh:

#2

I am enclosing the Bear Canyon Mine mining and reclamation plan with the proposed modification to include mining in the Tank Seam in federal lease U-024316 (attached Detailed Schedule for Changes identifies the proposed modification.) These volumes were previously submitted with a federal lease application but were withdrawn when the Division denied mining in the federal lease on May 20, 1991.

Your cooperation in this permitting action is appreciated. If you have any questions, please call me.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
