To Whom It May Concern,

**Re: Culver C-36U Stream Alteration, Bear Canyon Mine, C/015/025, Emery County, Utah**

Enclosed are three DRAFT copies of an amendment to add a culvert to the Bear Creek in order to facilitate the installation and removal of the Wild Horse Ridge belt.

The culvert C-36U is located in reclamation area TS-5 where the Wild Horse Ridge Conveyor crosses Bear Creek. The amendment includes changes to Appendix 3-L where the reclamation of TS-5 and TS-6 are described. Fill material will be used from TS-6 just above the Primary Tipple Access Road in order to cover the culvert. The amendment requires a stream alteration permit. This was already submitted with amendment AM01C and is now included in Appendix 7-O pages 7O-43 and 7O-44 of the current MRP.

The amendment also includes moving the current Tank Seam fan and water tank to the WHR Blind Canyon Seam Pad instead of constructing new facilities. The bond calculations have also been updated to include the new cut and fill volumes and the changes in the fan and water tank.

Co-Op Mining Company requests that the review of this amendment be expedited to facilitate the construction of the conveyor belt. The current construction schedule calls for the installation of the culvert in late January or the first week of February.

If you have any questions, please call Charles Reynolds at (435) 687-5238.

Thank You,

*Wendell Owen*
