**Re: NOV # N03-46-2-2, Bear Canyon Mine, C/015/025**

We have been unable to cover all berms along the WHR access road with erosion control matting due to a shortage in our stock of the matting.

We are formally requesting an extension to abate the NOV until February 19, This should allow adequate time to replenish our stock of the matting and cover the berms.

It should be noted that covering the berms with erosion control matting is the only repair that has not been completed.

If you have any questions, please call me at (435) 687-5238.

Thank You,

Mark Reynolds,  
Environmental Coordinator
