Subject: Re: Follow up on payment of Division assessment / N03-40-1-1 / Failure to Conduct Water Monitoring

Thanks for following up on that! We look forward to seeing the payment.

Pam.....

Steph asked me to help her follow up on your query about Mike Suflita's NOV to CO-OP for failure to monitor the four ground water wells during 2002. Mark Reynolds indicated that they had lost the information, (anyway, he claims he was not aware of the violation), so we faxed him the NOV, the assessment and the termination yesterday. I just called and spoke with Eldon Stevens (their controller) at the Mine and he indicated that the payment is ready to be sent via USPS. It should be in SL in a few days. If it is not received, let me know. I'll rattle their chain again. Thanks.
