RE: CO-OP Mining Company "Bear Canyon" Mine - Application for a Permit Revision,
Escarpment Failure Abatement

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) March 11, 2005, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Escarpment Failure Abatement, has determined that it discusses the proposed measures to be taken to protect natural surface structures and streams from escarpment failures and subsidence at the Bear Canyon mine, Utah State permit C/015/025.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Escarpment Failure Abatement with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the March 11, 2005 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

RECEIVED

APR 18 2005

DIV. OF OIL, GAS & MINING

In an electronic transmittal dated March 31, 2005, the U.S. Forest service stated it had no comments or concerns with the Escarpment Failure Abatement revision.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ranvir Singh', with a long horizontal stroke extending to the right.
