Subject: Status NOV Assessment Payment

Dear Mark and Charles,

Just following up on a voicemail message I left on your answering machine a week or so ago.

As you will recall, during our January 4th Hiawatha mid-term meeting at the Price Field Office we mentioned that our records reflected that the fines assessed for NOV's (NO4-46-1-1 & NO4-46-2-2) at the Bear Canyon Mine had not been paid. There were 3 NOV's assessed (\$374, \$528 and \$440) which total \$1342. You said that you would check into this to see why they had not been paid. If you have not already done so, would you please make arrangements to have this matter resolved immediately? Thank you for your cooperation in this regard.

If I can be of further assistance, please let me know.
