Subject: Re: water monitoring (1st quarter)

Mark,

I have uploaded all of the information for Bear Canyon and Hiawatha from the pipeline into the database. Reports are attached.

It looks like you have included all required samples and parameters.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

All samples for Bear Canyon and Hiawatha are in the pipeline and ready to upload.

There are some samples that need to be removed. They are all UTG04006-004 sites. You will see that there are duplicate entries for some of the months. The sampler was opening the discharge valve on our water tank to get the samples and that was the only time water was discharge. Then my secretary ok'd them to before I reviewed them because the database said everything was fine, so I couldn't tell the database to remove them
