

However, in the event that C. W. Mining is in a position to permit new facilities on disturbed ground, it has committed to a thorough Paleo-Archo Survey prior to any new disturbances. Also, should any evidence of Pale-Archo finds be discovered in the course of present construction, the site will be roped off and construction halted until the Historical Division is contacted. However, a survey was conducted the summer of 1984 and 1990 for those areas which may be adversely impacted by subsidence. This information was submitted as [Appendix 4-A](#). [Appendix 4-B](#) contains the results of a survey of the Wild Horse Ridge Area which was conducted in 1982. [Appendix 4-C](#) contains the results of a survey of the Wild Horse Ridge Tank Seam Area conducted in 2001.

At the request of the U.S. Forest, an additional thorough literature search will be conducted for any cultural resources within those areas that may be adversely impacted by subsidence. Co-Op Mining Company commits to conducting this literature search prior to any retreat mining within the Wild Horse Ridge area.

Application of the National Register Criteria of Eligibility, as defined under 36 CFR 60.6, indicates that there is one site (Site 42 EM 1572) within the permit area which would be considered a candidate.

411.141 Cultural and Historic Resources Maps

These maps are located inside the reports on the specific areas.
